Customer Support Knowledge Base

Sample company document for testing a Retrieval-Augmented Generation (RAG) customer support chatbot.

1. Company Overview

NovaTech Solutions is a fictional technology company that sells consumer electronics, including smartphones, laptops, wireless headphones, smart watches, and accessories. Customer support is available through the online help center, email, and human support agents. The standard support hours are Monday through Saturday, 9:00 AM to 6:00 PM IST.

2. Order and Delivery Policy

Standard domestic delivery normally takes 3 to 7 business days after an order is confirmed. Express delivery, where available, normally takes 1 to 3 business days. Delivery estimates can change because of weather, public holidays, remote locations, or courier delays. Customers can check order status using the tracking number provided in the order confirmation email.

3. Return Policy

Customers may request a return within 30 calendar days of delivery for eligible products. The product should normally be unused, in resalable condition, and accompanied by its original packaging and accessories. Some products may have separate return restrictions. A return request can be submitted through the customer's account under Orders > Return Request.

4. Refund Policy

After a returned product is inspected and approved, refunds are normally initiated within 5 business days. Depending on the payment method and bank, the amount may take an additional 3 to 7 business days to appear in the customer's account. Shipping charges may not be refundable unless the return is caused by an incorrect, damaged, or defective shipment.

5. Warranty Policy

Most NovaTech electronic products include a limited 12-month manufacturer warranty beginning on the purchase date. The warranty covers manufacturing defects under normal use. Accidental damage, liquid damage, unauthorized repairs, cosmetic damage, and normal wear and tear are generally not covered. Customers should retain their invoice or order information for warranty service.

6. Replacement for Damaged Products

If a product arrives damaged, the customer should contact support within 48 hours of delivery and provide photographs of the package and product. After verification, NovaTech may offer a replacement or another resolution according to the applicable policy. Customers should keep the original packaging until the case is resolved.

7. Cancellation Policy

An order may be cancelled before it enters the shipping process. Once an order has been dispatched, cancellation may no longer be available and the customer may need to use the return

process after delivery. If a cancellation is successfully processed before shipment, the refund follows the normal refund timeline.

8. Payment Methods

NovaTech accepts major debit cards, credit cards, supported UPI payments, and selected online payment methods shown during checkout. Payment authorization may fail because of bank restrictions, incorrect payment details, insufficient funds, or temporary payment-provider issues. Customers should not share their card PIN, password, or one-time password with support staff.

9. Product Support

For device setup problems, customers should first consult the product manual and troubleshooting instructions in the help center. Customers may be asked to provide the product model, order number, operating system version, and a description of the issue. Support agents will not request confidential passwords or payment authentication codes.

10. Frequently Asked Questions

Q: How long does standard delivery take?
A: Standard domestic delivery normally takes 3 to 7 business days.

Q: How long do I have to return an eligible product?
A: An eligible product can normally be returned within 30 calendar days of delivery.

Q: When is a refund initiated?
A: Approved refunds are normally initiated within 5 business days after inspection.

Q: How long is the standard warranty?
A: Most products have a limited 12-month manufacturer warranty.

Q: What should I do if my package arrives damaged?
A: Contact support within 48 hours and provide photographs of the package and product.

11. Human Support Escalation

If a customer's question cannot be answered from the available company documents, the chatbot should not invent an answer. It should clearly state that the information was not found and offer to create a support ticket for a human agent. A support ticket should contain the customer's question, relevant order information when available, and any useful conversation context.

12. Privacy and Security

Customers should never provide passwords, card PINs, one-time passwords, or other authentication secrets to support staff. Support personnel should only request information necessary to investigate the customer's issue. Sensitive customer information should be handled according to the company's applicable privacy and security procedures.

Sample Product Catalog

Product	Category	Warranty	Typical Delivery
NovaPhone X1	Smartphone	12 months	3–7 business days
NovaBook Air	Laptop	12 months	3–7 business days
NovaBuds Pro	Wireless Headphones	12 months	3–7 business days
NovaWatch S	Smart Watch	12 months	3–7 business days
NovaCharge 65W	Charger	6 months	3–7 business days

Testing questions you can ask your RAG chatbot: How long is the warranty? What is the return period? How long does standard delivery take? What should I do if my product arrives damaged? When will I receive my refund? Can I cancel an order after it is dispatched?
